If you can only accomplish one thing once elected, what would you hope to accomplish? *

My goal if reelected is to serve our community to the best of my ability. This can be accomplished by supporting our parents, students and employees in ways to make our school system strong academically, fiscally responsible and free of moral corruption.

What does liberty mean to you? *

Liberty to me means having the freedom to make our own choices in how we choose to live. However it does NOT mean we should be free of the consequences of our choices. It also does not mean we can do whatever we want. We are not free to yell "Fire" in a crowded theater or take another's property because we are in need of it. Liberty also does not mean we must accept the beliefs of others. We need to respect their beliefs to live as they choose but as part of our gift of liberty we do not have to accept beliefs we deem to be false.

Who do you believe is the most important stakeholder in education? *

A stakeholder is defined as member of groups without whose support the organization would cease to exist. Referencing that definition I would say there is not one most important stakeholder. I believe the administration, teachers ,support staff, community, parents and students need to work together to ensure the best education possible for our children.
